## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

After page 29, the following Abstract has been inserted as a separate sheet:

A process prepares an aqueous alkali metal acrylate solution by distillatively removing acrylic acid from a mixture as vapors and taking up the vapors immediately from the gas phase into an aqueous alkali solution.

The following is an examiner's statement of reasons for allowance:

None of the cited references teach a method of producing alkali metal acrylates wherein acrylic acid is removed from the distillation apparatus and is taken up <a href="mailto:immediately">immediately</a> from a gas phase into an aqueous solution of at least one alkali metal compound. In this regard, the acrylic acid in DE 082 is already in the liquid phase prior to adding it to the alkaline slurry. Neither of the secondary references remedy DE 082 since none of the applied prior art discloses or suggests transferring gaseous acrylic acid into an aqueous solution of an alkali metal compound.

An updated search of the prior art failed to uncover a reference that would have motivated those of ordinary skill to modify a known process for producing alkali metal acrylates to include a step where acrylic acid is removed from a distillation apparatus

Art Unit: 1621

and is taken up <u>immediately</u> from a gas phase into an aqueous solution of at least one alkali metal compound.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karl J. Puttlitz whose telephone number is (571) 272-0645. The examiner can normally be reached on Monday to Friday from 9 a.m. to 5 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman K. Page, can be reached at telephone number (571) 272-0602. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
